Analytic Drill Down Release PV8.4.0 SV101

The theme for this Hotfix release of Analytic Drill Down is fixed issues.

Highlights

- This release focuses on fixed issues with the Matrix drill down feature for smooth operation and enhanced performance.

Fixed Issues

- The Matrix drill down will run smoothly when the "Entity" option is picked for either Rows or Columns in the table. Select the refresh button to run the drill down. (MP3-8579)

Upgrade Information

- OneStream Platform Version 8.4.0 is the minimum version required to install this version of the solution. OneStream recommends upgrading to the latest platform version.

Compatibility

- OneStream Platform Version 8.4.0 is the minimum version required to install this solution.

Known Issues

- Variance amounts not calculated correctly when certain dynamic members are used within the POV due to the default OneStream calculation order of operation sequence (#2956).

Documentation

- The Analytic Drill Down guide has not been updated except to change the release number and copyright if needed.
