CPM Express GAAP Release

PV9.3.0 SV101

The theme for this Minor release is a productized solution that brings together the leading practices of the world's top-performing organizations for planning, reporting, and consolidations into a unified, scalable solution.

Highlights

- This release was focused on 9.3.0 compatibility and upgrading Line Item Modeling and Workforce Planning.
- The OneStream software platform version 9.3.0 or later is required.

Enhancements

- Upgraded the Following Solutions for 9.3.0 Compatibility:
 - Cloud Administrator Tools (CAT)
 - OneStream Diagnostics (ODS)
 - Help Desk (HDK)
- Upgraded Workforce Planning Express to be Compatible with Line Item Modeling PV9.0.0 SV2.0.0.
- Removed OneStream Press Navigation Group in Genesis.

- Renamed “Health Monitoring” to System Diagnostics.
- Updated Default Visibility Behavior for Optional Solutions.

Compatibility

- The OneStream software platform version 9.3.0 or later is required.
- Line Item Modeling PV9.0.0 SV2.0.0 is required to use Workforce Planning Express.

Known Issues

- CTA exclusion requires manual configuration within flow members associated with account rollups. See the CPM Express GAAP Configuration Guide for more details under **Configuring Accounts for CTA Exclusion**.
- Cube View Tree View block on Review Page of Planning Framework does not support nested parameters
- GDR - Selector List View Order resets to default values when discovering parameters on cube view reports in report management where the Selector List View Order values were manually updated
