Release PV9.3.0 SV120

This release delivers WCAG 2.1 AA accessibility compliance updates across the AI Data Tools solution.

Compatibility

Use OneStream Software platform version 9.3.0 or later with this version and Xperiflow version 4.2.0 or later.

Upgrade Information

Upgrading to PV9.3.0 SV120 from any earlier release requires performing an Uninstall Full instead of an Uninstall UI.

Enhancements

WCAG 2.1 AA Compliance

The solution is WCAG 2.1 AA compliant, including but not limited to:

- Keyboard navigation
- Screen readers
- Color contrast

Fixed Issues

- The Edit and Drop Table dialogs function correctly when the user's list of available database connections changes over time.

Known Issues

- Database tables with non-default schema do not support in-dialog alteration.
- Extremely large datasets or query responses may fail to load due to a “Stream was too long” error. To avoid this issue, break up datasets into smaller chunks.
