Navigation Center Release PV8.5.0 SV103

The theme for this Hotfix release is a bug fix.

Fixed Issues

- Users assigned to many security groups can successfully launch and use Navigation Center without error. (MP3-7743)

Upgrade Information

- This release supports a reinstall over the existing installation. Reach out to your OneStream Software representative for questions regarding this process.
- OneStream strongly recommends uninstalling the UI for Navigation Center before installation. Any modifications to settings must be redone.

Compatibility

- This release requires a minimum 8.5 Platform release.

Documentation

- The solution Help icon prompts a dialog where you can access online help documentation. (MP3-7794)
- Only the Release Notes were updated for this release. The *Navigation Center Guide* has not been updated except to change the release number and copyright if needed.

Known Issues

- Platform Version 9.0 users will encounter an error in Narrative Reporting when checking out a document using Office Processed that contains an embedded cube view artifact with the "Auto Fit to Page Width" setting set to True. (MP3-8198)
