Release PV8.0.0 SV100

The theme of this Major release is a bug fix.

Fixed Issues

- During the Discovery scan of a Parcel Service package, broken parameters are skipped without error and excluded from the parameter dictionary. When the scan is completed, you are prompted to view additional details using the Error Log. (MP3-6754)

Upgrade Information

- Use OneStream Software Platform version 8.0 or later.
- This release supports a reinstall over the existing installation. Reach out to your OneStream Software representative for questions regarding this process.

Compatibility

- This solution is compatible with OneStream Platform v8.

Documentation

- Only the Release Notes were updated for this release. The Parcel Service Guide has not been updated except to change the release number and copyright if needed.
