Xperiflow Cloud Tools Release

PV9.0.0 SV2.5.0

The theme for this Hotfix release for Xperiflow Cloud Tools is OpenTelemetry Redesign

Enhancements

- **OpenTelemetry Redesign:** This release changes how telemetry information is passed through in each solution.

Dependencies

XPFv3.0.0

XBR-SV240-XPFv4.4.0-PV930

Known Issues

- Currently Xperiflow upgrades must be completed sequentially. A user wishing to upgrade from 4.0.0 to 4.3.0 would perform three individual upgrades, first to 4.0.3, then 4.1.2, then 4.3.0.

Compatibility

- Use OneStream Platform Version 9.0.0 or later and Xperiflow Version 4.4.0 or later with this version. OneStream recommends upgrading to the latest platform version.

Xperiflow Cloud ToolsRelease

PV9.0.0 SV2.4.0

The theme of this Minor release is WCAG 2.1 AA compliance.

Features

- Added IIS Reset functionality to the Global Settings dialog. This will reset Xperiflow-related web items.

Enhancements

- Added Start Time and Description labels to better track upgrades as they are processing.
- Added a verification step that bots are enabled in the environment.
- Added “Upgrade Version Mapping”. Versions displayed in the New Version dropdown are now limited to only possible upgrade options.
- Improved user-facing error messaging on certain undesirable responses.
- The solution is WCAG 2.1 AA compliant, including but not limited to:
 - Keyboard navigation
 - Screen readers
 - Color contrast

Bug Fixes

- Fixed a bug where upgrade versions could display in an unrealistic order.
- Fixed a bug where upgrade progression would be artificially capped at 75%.
- Fixed a bug where uninstalling the solution could error.

Dependencies

- Xperiflow v3.0.0
- XBR-SV200-XPfv4.0.0-PV900

Known Issues

- Currently Xperiflow upgrades must be completed sequentially. A user wishing to upgrade from 4.0.0 to 4.3.0 would perform three individual upgrades, first to 4.0.3, then 4.1.2, then 4.3.0.

Compatibility

- Use OneStream Platform Version 9.0.0 or later and Xperiflow Version 4.2.0 or later with this version. OneStream recommends upgrading to the latest platform version.

Xperiflow Cloud Tools Release

PV9.0.0 SV2.2.0

The theme of this Minor release is enhancements and bug fixes for Xperiflow Cloud Tools.

Enhancements

- Support is enabled for the Modern Browser Experience.
- Error handling is improved to communicate issues more effectively to the user when they occur.
- Endpoint and URI parsing is improved to simplify implementations.
- Timeout is increased from 10 minutes to 15 minutes when performing the Server Upgrade step.

Fixed Issues

- Server upgrades cannot be started while a job is still running.

Compatibility

- Use OneStream Software Platform Version 9.0.0 or later and Xperiflow Version 3.0.0 or later with this version. OneStream recommends upgrading to the latest platform version.
