Release PV600 SV102

The theme of this release is bug fixes within Cloud Administration Tools.

Prerequisites

- This solution is compatible with OneStream Platform v8.
- This release requires a minimum 6.0 Platform release.
- This release supports an overinstall for previous releases. Reach out to your OneStream Software representative for questions regarding the overinstall process.
- OneStream strongly recommends uninstalling the UI for Cloud Administration Tools before installation. Any modifications to settings must be redone.

New Features

None

Enhancements

None

Fixed Issues

- An error populated while trying to use the IISReset button has been resolved. (MP3-4286)

Known Issues

None
