Release Notes PV920 SV101

CPM Express IFRS PV920 SV101 is an IFRS compliant application for consolidation, planning, and reporting - delivered through a productized approach that accelerates time-to-value and ensures predictable, scalable outcomes.

Prerequisites

Customers will use the CPM Express Chart of Accounts, Flows and Audit Types as a basis, ideally extending down from the provided Summary and Reporting Accounts dimensions into the Corporate Accounts dimension or by adjusting the existing Chart of Accounts.

New

- N/A

Changed

- N/A

Fixed

- The “Metadata Tool ”(Dimension Editor) in the Admin section of Genesis is now opening properly. A Blank page used to show instead of the solution.

Known Issues

- Cash Flow (CFS) dashboard does not open and returns an error when opened while a non-monthly scenario is selected in the Workflow POV.
- Confirmation rules cannot be deleted from the Confirmation Rule Builder dashboard. Please refer to the Application reference guide for manual deletion

Contacting Support

CPM Express projects are supported as regular implementations. Additional resources may be available on OneStream’s Community Page.
