Release PV840 SV100

With the release of PV840 SV100, Task Manager is compatible with the Modern Browser Experience. This means that despite small cosmetic differences, all elements of this solution can be utilized through the Community Solution Pane. To learn more about the Modern Browser Experience, refer to the Modern Browser Experience guide. Click here to see what Browsers and Devices we recommend.

Prerequisites

- This solution is only compatible with OneStream Platform v8.4.
- This release supports a reinstall over the existing installation, however, OneStream recommends Uninstalling UI of prior Task Manger versions before upgrading to Platform Version 8.4.
- Review the information in this section before you install, deploy, or upgrade. OneStream strongly recommends that you upgrade in a Development environment before upgrading in the Production application.
- Upgrade to UTM PV660 SV102 before upgrading to any UTM 8.X version.
- **Compatibility**: Use OneStream Platform version 8.4.0 or later with this version of Task Manager

New Features

None

Enhancements

None

Fixed Issues

None

Known Issues

- **Task Administration Page**: Only the last xfDoc entry displays after combining and publishing multiple xfDocs into one document. (MP1-6202)
- **Task Grid View**: You may receive an error when trying to access prior period tasks after a Workflow Profile has been renamed. (MP1-6197)
- **Task Grid View**: Powerpoint xfDocs do not open when published. This issue is only present in the Modern Browser Experience. (MP1-6219)
